DANCE

Overview and Contact Information
Five College Dance combines the programs of Amherst, Hampshire, Mount Holyoke, and Smith Colleges and the University of Massachusetts at Amherst. The faculty meets to coordinate curricula, course scheduling, performances, and other services. Five College Dance supports a variety of philosophical approaches to dance and provides an opportunity for students to experience a wide spectrum of performance styles and techniques. Course offerings are coordinated among the campuses to facilitate registration, interchange, and student travel; students may take a dance course on any of the five campuses and receive credit at their home institution.

Please consult the Five College Dance website (https://www.fivecolleges.edu/dance/) for up-to-date listings, faculty, and guest artists. Each semester, a listing of the current Five College dance courses, with specified times and locations, is available online (https://www.fivecolleges.edu/academics/courses/dance/).

Learning Goals
The dance department’s learning goals incorporate the broader learning goals of the college by educating students to think analytically about dance and acquire in-depth methodological expertise and historical understanding of the art form.

The curriculum encourages artistic expression by developing skills in the language of dance while concurrently connecting inquiry to disciplines in and outside the arts.

Students engage in the community through performance and site-specific work and practice self-assessment and reflection through process papers, choreographic showings and the senior capstone course.

Departmental Learning Goals
• Develop a multi-faceted literacy for dance—kinesthetic, visual, musical.
• Undertake an in-depth study and practice of technique and performance.
• Promote the integrated study of a broad spectrum of dance:
  • Choreography, performance, creative studies, rhythmic analysis.
  • History, culture, and aesthetics.
  • Teacher licensure, dance education, and community outreach.
  • Design, production and arts management.
• Encourage personal and cultural connections through somatic learning, imaginative exploration, and historical understanding.
• Enhance interdisciplinary awareness and collaboration and apply creative and artistic modes of inquiry across disciplines.

How does the body speak? What physical, cultural, and aesthetic principles inform the embodiment and skillful practice of different dance traditions? How is choreography inspired and developed, and what are the key tools of its craft? A dance student will investigate physical, cultural and aesthetic principles of dance and embody the skillful practice of different dance traditions. The curriculum of core courses and areas of concentration emphasize technical training, performance, creative practice and critical/theoretical understanding. A dance major may choose one of three areas of concentration, pursue dance teacher licensure (http://catalog.mtholyoke.edu/areas-study/psychology-education/#teacherlicensuretext), or choose to create their own concentration supported by the Five College Curriculum. The major is designed to prepare students for dance careers in choreography and performance; science, somatics, and arts therapies; education and community engagement; and history, theory, and criticism.
