# PHYSICAL EDUCATION AND ATHLETICS

# **Overview and Contact Information**

The Department of Physical Education aims to develop in the student an awareness and an intelligent understanding of the need for and effects of healthy physical activity. The instructional program offers opportunities for the student to acquire lifetime sport and movement skills that will enhance the overall quality of life, both now and in the future.

Four physical education units are required of all students, except transfer students and Frances Perkins Scholars who are required to complete two physical education units. Students who do not feel safe in deep water are encouraged to take a swimming course.

Most physical education courses meet two hours a week for one semester, for two physical education units. Some courses, however, meet for half a semester, for one physical education unit.

Fees are indicated where required.

The physical education department does not offer a physical education major, but a student may propose an 18-credit educational studies minor with a concentration in sport pedagogy and coaching. (See the Educational Studies chapter for further information.)

Courses numbered 100 are at the beginning level; those numbered 200 are intermediate; those numbered 300 are advanced; and those numbered 400 indicate varsity teams and/or special advanced courses.

The second number in each course number indicates a specific area of study as follows: 0, aquatics; 1, dance and individual activities; 2, exercise, fitness, and wellness; 3 and 4, varsity sports; and 5, riding.

# Dance

All Department of Dance technique courses satisfy both academic and physical education requirements. There is no "physical education unit only" option for dance department courses. Students must meet the attendance requirement to receive two physical education units. See Dance (http://catalog.mtholyoke.edu/areas-study/dance/#coursestext) for course descriptions.

# Riding

The Equestrian Center and its instructors are licensed by the Commonwealth of Massachusetts. Under Massachusetts law, "an Equine Professional is not liable for an injury to, or death of, a participant in equine activities resulting from the inherent risk of equine activities, pursuant to section 2D of Chapter 128 of the General Laws."

Mount Holyoke College has the option to cancel/combine classes to maintain an enrollment of three or more in a class.

All riders must wear properly fitting headgear passing or surpassing current applicable ASTM/SEI standards with harness secured when mounted. With the exception of beginner classes, all riders must have the following riding attire to participate in riding classes: approved helmet, riding breeches, and correct footwear. Correct footwear includes: paddock boots with half chaps or tall riding boots. Full chaps and paddock boots are allowed during cold weather. No tank tops. All riders must be prepared to allow approximately one half-hour before and after each class to properly groom, tack, and cool out their horse.

Courses in riding at Mount Holyoke are offered by the Equestrian Program within the Department of Physical Education and Athletics. Students who wish to participate must register for the appropriate riding course with an understanding of the course's level and any prerequisites.

Riding is a sport in which the rider's balance and the horse's balance are integrally connected. When a rider's body weight is significantly high for their height, the rider may struggle enough with their balance to endanger both their own and their horse's safety, especially when learning to ride and jump. There are also times when the Equestrian Program does not have horses suitable to carry these riders. With these two facts in mind, the Equestrian Program cannot mount persons who fall outside the safe limits of the horse's weight carrying capacity. The Equestrian Program reserves the right to prohibit students' participation in a riding class/ practice/lesson or to limit the horses that they ride. The Equestrian Program may also limit the activities in which they participate within their PE class/practice/lesson if the instructor/coach feels that either the student's or horse's safety and well-being are at risk.

The Equestrian Program requires all riders to complete a form at the beginning of each semester that indicates their height and a weight range so that they may be appropriately mounted. Each active member of the MHC school horse herd has a weight limit based on the United States Equestrian Federation (USEF) recommendations. The USEF recommends that horses with a cannon bone measurement below a certain diameter not carry riders over a certain weight.

Currently our herd falls into the following measurements:

- · Cannon bone circumference of 8 in. Weight of rider up to 168 lbs.
- · Cannon bone circumference of 8.5 in Weight of rider up to 181 lbs.
- · Cannon bone circumference of 9 in Weight of rider up to 196 lbs.
- · Cannon bone circumference 10 in. Weight of rider up to 210 lbs.

Factors such as the length of the horse's back in relation to its height, how much a horse should carry in respect to the rider's weight as a percent of its own body weight (15-20% maximum), age, and soundness history may impact the horse's weight carrying capacity. Thus, the USEF recommended limit may be reduced based on these factors. The MHC Riding Program centers the health and well-being of the horse herd and makes its decisions accordingly related to riding schedule and competitions.

Students are expected to adhere to the honor code and treat the horses ethically by not riding a horse for whom they may exceed the weight limit: our very limited number of highest weight carrying mounts currently have a limitation of 200-210lbs. If a student's riding cannot be accommodated at Mount Holyoke within the current semester, they are encouraged to pursue any of the unmounted options available to be with horses at MHC. These include, but are not limited to, horsemanship membership in the club teams or working in the stables.

Students with any questions about their riding level should see the Riding Program (http://athletics.mtholyoke.edu/facilities/equestrian\_center/ riding\_program/) website or email equestrian@mtholyoke.edu.

### PE-268 Club Squash

#### Fall and Spring.

Squash is a high-energy racquet sport played by two players or four players on a four-walled court. The game is known for its intense rallies, strategic play, and physical and mental endurance. Players take turns hitting a small rubber ball against the front wall, aiming to outmaneuver their opponent and win points by making the ball difficult to return. Mount Holyoke Club Squash is excited to introduce the world of squash to newcomers while helping seasoned players refine their skills. Club squash offers competitive opportunities. Members participate in tournaments, testing their skills and gaining valuable experience while fostering a spirit of healthy competition and community.
